Special Issue on Italian Journal of Geosciences

From the Tethyan Margin to Alpine Orogeny across the Northern African margin: Geodynamics, Tectonosedimentary Evolution, and Georesources

Possible topics

The selected papers in this proposal issue of “From the Tethyan Margin to Alpine Orogeny” is organized into three research themes:

- Tectonic deformation and geodynamic evolution of the southern Tethyan margin;
- Structural style and regional-scale deformation;
- Georesources systems. Tectonic deformation and geodynamic evolution of the southern Tethyan margin.

Timeline

Call for abstracts: 15/07/2023*
Call for full papers: 31/01/2024
